#### 4. Perbedaan Sebelum menggunakan HTML5 dan CSS3 serta Setelah HTML5 dan CSS3

Perbedaan untuk HTML sendiri terlihat pada codingannya yaitu lebih simple dan sederhana, untuk perbedaan secara umum pada HTML version 5 ini terdapat tambahan tag yang baru, yang versi sebelumnya tidak ada, seperti tag video, audio, header, navigasi, dsb.

Lalu pada css sendiri perbedaan tugas1 dan tugas 2 yaitu pada segi interaktif nya. Tugas2 lebih interaktif dibanding tugas 1 karena pada css versi tiga terdapat property baru yang sangat mendukung website kita lebih interaktif, seperti border-radius, animation, transform dsb.
